Steamrolling nearly all opposition with its apocalyptic predictions of environmental doom, the Green movement has gained influence throughout American society--from schools and local planning boards to the biggest corporations in the country.

Citing the tactics and goals of Green groups as explained by their own activists and leaders, *Green Hell* demonstrates:

- * How Green pressure campaigns threaten the safety of your home and your car, and public health overall
- * Why Greens obstruct the use of all forms of energy--even the renewable sources they tout to the public
- * How wealthy Green elites stand to profit fabulously from the restrictions and regulations they seek to impose on the rest of us
- * How Green pressure campaigns are hamstringing the military and endangering our national security
- * What you can do to help stop the great Green machine

A one-of-a-kind, comprehensive takedown of the entire environmental movement, *Green Hell* will open your eyes to a looming threat to our economy, our civil liberties, and the entire American way of life.
